# COMMERCIAL PILOT LICENSE

EASA PROGRAM

**WE BUILD**

---

# EXPERIENCES

Flying Academy's mission is to make YOU the most professional, skilled and dedicated pilot. We are completely equipped for the challenges of employment opportunities of airlines all over the world.

Our mission is a commitment to our students based on personal approach and care, guide them step by step, close monitoring, and adapting the training.

This is our promise!

# OUR STORY

... SO FAR

Perfect safety record,  
unprecedented student support,  
and best in class training environment is our promise.

## International TRAINING

We are Flying Academy - International Flight Training center with more than three decades of experience, founded by airline pilots for future airline pilots.

## Perfect SAFETY

The regulation in the European Union is very strict about aviation safety. Our fleet is maintained at the highest levels of safety. Flying Academy prioritizes and promotes safety culture in all aspects of its operations.

## Our FLEET

Flying Academy, one of the leading global flight schools, is proud to present our fleet. It consists of single and multi-engine aircraft. The whole fleet, at both continents where we operate, consists of over 42 aircraft.

## Online TRAINING

With Flying Academy's brand new online classrooms, you can start your theoretical training without leaving the comfort of your home, in a decent amount of time!

# EASA CPL (A)

## WHAT IS EASA CPL (A)?

The EASA Commercial Pilot License is a qualification that permits the holder to act as the pilot of an aircraft for remuneration and act as co-pilot (First Officer) in commercial air transportation, as pilot-in-command, co-pilot of any airplane engaged in operations other than commercial air transportation or as pilot-in-command in commercial air transportation of any single-pilot airplane. The Commercial Pilot License training is usually one of the last steps in becoming a professional pilot.

*Being a Commercial Pilot comes with a great deal of responsibility, complex decision making, and the ability to understand and cope with abnormal situations.*

ACADEMY**

# COURSE BENEFITS

## SAVE YOUR TIME WITH ONLINE CLASSES

---

You will begin all of your theoretical training from the comfort of your home. Afterwards, you shall come to the school to carry out the flight training portion of your course.

## BEGIN YOUR PROFESSIONAL AVIATION CAREER

---

The Commercial Pilot License training is usually one of the last steps in becoming a professional pilot. Being a Commercial Pilot comes with a great deal of responsibility, complex decision making, and the ability to understand and cope with abnormal situations.

## SAVE YOUR VALUABLE FUNDS

---

This organisation of training will decrease the costs of the training, providing you with high-quality theoretical training following the current trends, while allowing you to save on the living costs.

---

# WHAT'S INCLUDED

- Lecture presentations conducted by appointed instructors
- In depth consultations held
- Seminars and Long Briefings to incorporate your practical and theoretical training!
- Stimulating assignments via Google Classroom
- Progress check monitored by your student advisor
- Temporary access to all class recordings
- Access to your eLearning (LMS) portal where you will find all interactive study material. Possibility of doing your exams at school or any approved Civil Aviation Authority Center.

## EASA CPL(A) IN NUMBERS

**15 h****FLIGHT TIME  
IR RATED****25 h****FLIGHT TIME  
NOT IR RATED****1x****CPL (A)**

COURSE ENTRY

# REQUIREMENTS

**TO BE AT LEAST  
18 YEARS OLD**

---

**TO BE AT LEAST CLASS  
1 MEDICAL HOLDER**

---

**BE A PPL(A) HOLDER**

---

**TO HAVE SUFFICIENT  
KNOWLEDGE OF  
MATHEMATICS & PHYSICS**

---

**PROFICIENCY IN THE  
ENGLISH LANGUAGE**

---

**TO PASS OUR INITIAL  
ASSESSMENT**

---

# THEORETICAL **TRAINING**

The theoretical training is provided in a form of several ground briefings/debriefings to help you understand what will be expected of you in the following flight. You will familiarize yourself with the basic commercial operations and maneuvers, gain further knowledge necessary for obtaining a CPL (A) and become familiar with the handling of a complex airplane.

# PRACTICAL TRAINING

1. For IR rated pilots – consists of 15 flight hours Dual, out of which 5 hours are on complex aircraft;
2. For non-IR rated pilots – 25 hours Dual, out of which 5 hours are on complex aircraft.

At the end of the training, the trainee must have a minimum of 200 total flight hours (including PPL(A) time):

- 100 hours as pilot-in-command
- 20 hours of VFR cross-country flight time as pilot-in-command, including a cross-country flight totaling at least 540 km (300 NM) in the course of with full-stop landings at two aerodromes different from the aerodromes of departure,
- 10 hours of instrument training – Basic Instrument Flight Module (*BIFM*),
- 5 hours of night flying including one cross-country flight and 5 solo take-offs and 5 landings,
- 5 hours on a complex airplane.

# **PRACTICAL EXAMINATION**

You will have to demonstrate the ability to:

- Operate the airplane within its limitations,
- Complete all maneuvers as smooth and as accurate as requested by EASA,
- Exercise good judgment and airmanship,
- Apply aeronautical knowledge,
- Maintain control of the airplane at all times

The duration of Commercial Pilot License – CPL(A) training depends on the trainee's time availability for both theoretical and practical training and the minimum duration is 3 weeks

# TRAINING LOCATIONS

## OUR LOCATIONS

With our international community, we also have our training locations spread across the globe. We have four bases in the heart of Europe. For this course you can join us in following bases.

### PRAGUE CZECH REPUBLIC

The Czech Republic is the perfect location for both practical and theoretical training. Flying Academy is the first choice of pilot training for future Professional or Private Pilots from all continents.

### VIENNA - BAD VÖSLAU AUSTRIA

Vienna, Austria is the perfect location for your professional pilot training. With new modern equipment, exclusive studios and technology, combined with our highly trained and experienced instructors.

### BRNO WEST FALCON FIELD CZECH REPUBLIC

Located in the heart of Europe, the Brno Falcon Field allows students to explore all different regions of Europe from the cockpit by being in the middle ground between Eastern & Western Europe

### BRNO TUŘANY CZECH REPUBLIC

Flying Academy is located at Brno Tuřany International Airport (LKTB). Use an opportunity to travel Europe as a part of your flight training, in a multinational airport.
